Work Experience

March 2024 – February 2025

Associate Front-End Developer
SCLERAVDMS PRIVATE LIMITED, Mangalore, India.

- Played an instrumental role in developing dynamic company websites using React.js, significantly enhancing front-end performance and overall user experience.
- Integrated RESTful APIs, improving website functionality by 30% and expanding data-driven capabilities.
- Styled modern, responsive interfaces using Tailwind CSS and Bootstrap, ensuring consistent design and faster development workflows.
- Developed interactive UI animations with Framer Motion, boosting user engagement by 25% and making the interface more dynamic.
- Implemented on-page SEO techniques that increased organic traffic by 40%, elevating search visibility and user reach.
- Optimized web performance using Google PageSpeed Insights, achieving a 40% faster load time and improving overall user experience.
- Strengthened code quality by introducing SonarLint, reducing code issues by 30% and resulting in a cleaner codebase.
- Maintained technical documentation, task trackers, and basic reports using Microsoft Excel and Word.

March 2023 – March 2024

Jr. Front-End Developer
Access Research Labs, Mangalore, India.

- Developed dynamic and static websites using HTML, CSS, and JavaScript, delivering seamless functionality and smooth user experiences across platforms.
- Designed fully responsive, mobile-first layouts with Flexbox, CSS Grid, and media queries, achieving over 90% device compatibility.
- Increased user interaction by 20% through smooth CSS animations and transitions, while ensuring fast load times and cross-browser support.
- Applied front-end best practices using semantic HTML and modular CSS, resulting in scalable, SEO-friendly code that's easy to maintain.
- Collaborated in an Agile environment, converting wireframes into interactive, production-ready websites with a focus on quality and deadlines.
